

Want to speed up your OutSystems development cycle and reduce time to market for your Low-Code apps?

# Test Automation on OutSystems

Our **Test Automation on OutSystems** tool can help! With our test automation tool, you'll save time, ensure high-quality software delivery, and say goodbye to manual testing. **Try it out today and see the difference for yourself!**

## About our offer

Unlock the full potential of your **Low-Code applications** on the **OutSystems platform** with our cutting-edge **Test Automation tool**.

Tailored specifically to meet the needs of **Low-Code development**, our advanced technology enables you to streamline your testing process, reduce costs, and improve the overall quality of your applications.

## Advantages

-  Automated testing boosts app quality and efficiency, helping organizations create and maintain OutSystems apps with lower costs.
-  Our tool boosts agility, efficiency, and success by streamlining collaboration between teams and maximizing potential.
-  Our tool's specialized algorithm for creating robust OutSystems object identifiers enhances quality, streamlines development, and ensures superior outcomes.
-  Developers and testers benefit from the convenience offered through this tool by eliminating the manual process of creating and maintaining correct identifiers needed for testing the applications.

### About Noesis

Noesis is an international tech consulting company offering services and solutions to support clients in their business and digital transformation. Noesis solutions focus on infrastructures, software, quality, and people. The organization is based on highly specialized talents, operating in nine business units and six countries: Portugal, Spain, the Netherlands, Brazil, Ireland, and The USA. Since 2020, Noesis has joined Altia, listed on The Alternative Equity Market, an organization with over 3,200 employees and more than 20 locations in 7 countries.

### About OutSystems

The Noesis and OutSystems partnership dates back to the first project developed with the low-code platform. Today Noesis has more than 240 OutSystems certifications within its team. A highly skilled team that can deliver custom-made solutions in record time, with the most significant business impact.

### About testingON

testingON – Simplified test automation simplifies the test automation process in an intuitive, fast, and versatile way, which means you can optimize the time-to-market for a solution while reducing costs in your overall development cycle. TestingOn is a NO-CODE solution allowing non-technical people to implement test automation batteries which can also quickly adapt to the specific needs of each market sector.
